

EAGLES WINGS

Skills Development Consultants

COMPANY PROFILE

HELPING OTHERS TO FLY

Eagle's Wings is a hands on company aimed at driven results that positively affect the businesses and individuals that we engage with. We are passionate about Skills Development that will ultimately uplift workers and businesses to win the ongoing battle against poverty, inequalities and bridging the unemployment gap.

From the company's inception in April 2016 to date, we have a regular supply of learners who are issued SOR's within a very short space of time. We have successfully trained over 2000 candidates who enjoy our cosy and stimulating environment.

The two directors of the company have experience in teaching, lecturing at both TVET colleges and UKZN for over 30 years. Both have been closely involved in skills development and training since the "New South Africa" after 1994. Their passion for the upliftment and development of individuals is evident in the referrals of learners through word of mouth and the fact that learners just keep coming back to do more and more courses with Eagles Wings.
